

I just wanted to thank you & the foundation for the grant to help with Katie's action trackchair! She's able to use it outside on our property almost daily. We took it to the mountains to explore & today, we visited the beach. She had a BLAST!!!! It was soooo much fun to walk alongside her while she looked for seashells, plus chase her in & out of the water when the little waves would come in. She climbed up & down the dunes, but she preferred to play by the water. Everyone who saw it was amazed & we had SEVERAL people taking pictures of it & lots of people commenting about how cool it is. This is truly a dream come true :) The laughs, smiles & fun made every single penny worth it!! Thank you, again! We are so grateful!!
